Avelino **Almeida**

DBA Consultant · SQL Server, BI and ETL

Penafiel, Portugal | avlalmeida@gmail.com | +351 916 472 603 | linkedin.com/in/avelinoalmeida | avelinoalmeida.github.io/home

Summary

DBA Consultant at eSPap, administering on-premises and Azure SQL Server environments, with a focus on availability, performance, maintenance and data recovery. Experience in Business Intelligence, from dimensional modelling to Power BI dashboards, and in ETL processes. MSc student in Computer Engineering and certified trainer in systems, networks and databases.

Technical Skills

Databases	SQL Server (2008 to 2025), T-SQL, indexes and statistics, performance tuning, backup and restore, security and permissions, SQL Server Agent, migrations and upgrades, SSIS, SSAS and SSRS administration, Azure SQL Database, Azure SQL Managed Instance, MySQL
BI and ETL	Power BI, DAX, Power Query, SSIS, dimensional modelling, data warehousing
Systems and Networks	Windows Server, Active Directory, DNS/DHCP, TCP/IP, Linux, Cisco (CCNA training)
Programming	SQL, Python (pandas, pyodbc), PowerShell (basic)
Analysis	Requirements gathering, KPI definition, BPMN

Professional Experience

DBA Consultant (Systems Engineering)

04/2026 – present

eSPap, Portuguese Public Administration Shared Services Entity — *Hybrid*

- Administration of SQL Server instances and databases (versions 2008 to 2025) in a large-scale on-premises Public Administration environment, as part of a 3-person DBA team.
- Administration of databases on Azure SQL Database and Azure SQL Managed Instance.
- Preventive maintenance: indexes and statistics, integrity checks (DBCC CHECKDB) and capacity management.
- Monitoring and performance analysis with DMVs, Extended Events and Profiler, including slow query diagnosis.
- Backup and data recovery management, and participation in migrating instances from Always On to a standalone configuration.
- Administration of dedicated SSIS, SSAS and SSRS servers: installation, maintenance, availability, access management and connectivity.
- Security and access management (logins, roles and permissions), task automation with SQL Server Agent and T-SQL, ad hoc checks with PowerShell, version migrations and upgrades, and procedure documentation.

Technical Assistant, Information Systems

06/2019 – 03/2026

ULS Tâmega e Sousa, E.P.E. (Local Health Unit, Portuguese NHS) — *Penafiel*

- Gathering and structuring of the 17 contracted performance indicators of the CRI-SM mental health pilot project, mapping each indicator to hospital data sources and to the institutional BI platform.
- Development of a BI prototype, from a SQL Server data warehouse to a dimensional model and DAX measures in Power BI, with dashboards tracking access to outpatient appointments, presented to the CRI-SM Management Board.
- Administrative support in a hospital setting (2019 to 2024), using clinical and administrative information systems daily.

Department Head

2012 – 2019

Grupo Ricon SA — *Famalicão*

- Coordination of a 10-person team across finishing, packaging and shipping, including logistics planning of export flows.
- Inventory, stock and supplies control for the department.
- First-line technical support for users and administrative IT infrastructure.

Sales Assistant

2002 – 2012

Sanvitêxteis, Indústria de Vestuário, Lda. (apparel manufacturing) — *Penafiel*

- Management of customers, suppliers and carriers, procurement of ancillary materials and export logistics.

Teaching

IT Trainer (evening, part-time) *2021 – present*

ATEC Training Academy (2021) · CESAE Digital (2023) *Matosinhos · Porto*

- Technical training in Operating Systems and Windows Server, Computer Networks, Hardware Architecture and Databases, with over 1,000 hours delivered to around 230 trainees.
- Instructor Excellence, Expert award (2024) from Cisco Networking Academy. Pedagogical Skills Certificate (CCP) F712253.2021.

Education

MSc in Computer Engineering *09/2025 – 2028 (expected)*

Polytechnic Institute of Porto, School of Technology and Management *Felgueiras*

- Dissertation (proposal stage): Project JANO, a monitoring platform for SQL Server instances (jobs, backups, storage and alerts), with SSIS ETL loads from a history database and a visual monitoring interface.

BSc in Information Systems for Management *10/2022 – 07/2025*

Polytechnic Institute of Porto, School of Technology and Management · Final grade 15/20 *Felgueiras*

- Internship (02/2025 – 06/2025, ULS Tâmega e Sousa): Monitoring and Control System for the CRI-SM pilot project, using SQL Server, Python and Power BI.

Higher Technical Diploma (CET) in Network and Computer Systems Management *09/2019 – 02/2021*

ATEC, Industry Training Association · EQF Level 5 · Final grade 18/20 *Matosinhos*

Certifications and Training

Cisco Networking Academy: Instructor Excellence, Expert (2024).

Cisco CCNA: full NetAcad training track (Introduction to Networks; Routing and Switching Essentials; Enterprise Networking, Security and Automation), part of the CET, Letter of Merit in all 3 modules (2020 – 2021).

Cybersecurity Essentials: Cisco Networking Academy and Palo Alto Networks Cybersecurity Academy (2020).

Power BI, 60 h (2025): Practical Power BI, certified training (30 h, Zona Verde); INA track (NAU platform), 5 modules: Power Query, data model, DAX, dashboards, publishing (30 h).

Advanced Excel, 74 h: Spreadsheets training unit 0778 (50 h, PROFISOUSA, 2021); INA track (NAU platform), 4 modules (24 h, 2025).

Teaching qualifications: Pedagogical Skills Certificate (CCP) F712253.2021 and E-Trainer/E-Tutor (60 h), Futurainbow (2021); Microsoft Innovative Educator (2021).
